Schlage locksets can be combined for quantity pricing

Door Locks SIMPLEX LOCKS

Styles: L1000/1000 series

Use: Use in hospitals, commercial or industrial buildings, apartments, dormitories and schools. Two access control functions are available in addition to standard combination access control.

Key Override: Schlage/Primus

Allows a facility to maintain or initiate a keyed alike security system with the same core system already in use. The key is normally only in the hands of security or management personnel and will override the lock's combination to gain entry.

Passage Feature: Allows access without using the entry code (keeps the door unlocked even while closed). Can be activated by either a thumbturn or a key from inside.

Door Thickness Range: 1 $\frac{3}{8}$ " to 2 $\frac{1}{4}$ "

Handing: Levers are handed at the factory and cannot be changed in the field, and have a free egress function at all times.

Other Functions & Finishes Available

Specs: Front is 7 $\frac{3}{8}$ "H x 3 $\frac{1}{8}$ "W, 3 $\frac{3}{16}$ " Deep including handle
Back is 9"H x 3 $\frac{1}{4}$ "W
